IMPORTS OF
FARM AND FOREST PRODUCTS,
1909-1911,

BY COUNTRIES FROM WHICH CONSIGNED.

DIVISION OF PRODUCTION AND DISTRIBUTION.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.

1912.

LETTER OF TRANSMITTAL.

U. S. DEPARTMENT OF AGRICULTURE,
BUREAU OF STATISTICS,
Washington, D. C., June 30, 1912.

SIR: I have the honor to transmit herewith a compilation of statistics of the imports of farm and forest products into the United States for the year ending June 30, 1911, with those for two previous years given for comparison. The data have been derived from the Bureau of Statistics of the Department of Commerce and Labor, and the work of compiling has been performed by the Division of Production and Distribution, Bureau of Statistics, Department of Agriculture.

This report is a continuation of a series of bulletins on the same subject designed for the use of this department and to meet the demands of a large number of correspondents, and contains an arrangement of the statistics and a determination of totals, with various comparisons, not presented in any other publication.

It is respectfully recommended that this report be published as Bulletin 95 of this bureau.

Very respectfully,

VICTOR H. OLMSTED,
Chief of Bureau.

Hon. JAMES WILSON,
Secretary of Agriculture.

EXPLANATION OF TERMS.

IMPORTS.—Goods from a foreign country entered at a customhouse.

IMPORTS FOR CONSUMPTION.—The term “entry for consumption” is the technical name of the import entry made at the customhouse, and does not imply that the goods will be actually consumed, but simply that they have been delivered into the custody of the importer and that the duties have been paid on the dutiable portion. Some of them may be afterwards exported.

FOREIGN EXPORTS OR REEXPORTS.—Goods which have been imported into this country, either for reexport or for consumption, and are afterwards exported, having undergone no change in form or condition or enhancement in value by the application of labor in the United States.

DOMESTIC EXPORTS.—Goods produced or manufactured in this country from either domestic or imported raw materials, and which are shipped to foreign countries.

TRANSIT OR IN-TRANSIT TRADE.—Goods from a foreign country passing through the United States on the way to a foreign country.

TRANSSHIPMENT TRADE.—Goods from a foreign country received at a United States port and there reshipped to a foreign country without being entered as an import into this country.

In-transit and transshipment trade is not included in the imports and exports of the United States, but is reported separately.

THE COUNTRY OF CONSIGNMENT is that which is mentioned in the exporting or importing documents as the one from which or to which the merchandise is to be shipped. The regulations of the Bureau of Statistics, Department of Commerce and Labor, are:

Collectors will consider the country in which merchandise was invoiced as the country whence the same was imported into the United States.

In export statements the countries stated should be, so far as can be ascertained, those for which the exports are destined for a market. * * * Exporters will be required to state in their manifests of goods exported the country of ultimate destination.

The country from which or to which goods are consigned may or may not be the country of origin or ultimate destination, as the case may be; the foregoing regulation with regard to the country of ultimate destination in export statements does not result in a material representation of countries of ultimate destination in place of countries of consignment in the records of the exports of this country, when these two countries are not the same.

VALUES.—The values of imported articles subject to ad valorem duties are defined by the act of Congress of June 10, 1890, as—

The actual market value or wholesale price of such merchandise as bought and sold in usual wholesale quantities at the time of exportation to the United States in the principal markets of the country from whence imported, and in the condition in which such merchandise is there bought for exportation to the United States or consigned to the United States for sale, including the value of all cartons, cases, crates, boxes, sacks, and coverings of any kind, and all other costs, charges, and expenses incident to placing the merchandise in condition ready for shipment to the United States.

The value of all other imports, whether subject to specific duty or free of duty, is also determined according to the law just quoted.

The value of domestic exports is their declared value at the time of exportation in the ports of the United States whence they are exported, which the law required to be stated under oath, with penalty for misstatement.

The value of foreign exports when shipped directly from bonded warehouses (usually dutiable goods) is their import value, but when not shipped from bonded warehouses (usually free goods) the value is determined in the same manner as that of domestic exports.

Goods in transit through the United States from one foreign country to another are valued in the same manner as imports.

Valuation deceptions.—The value of imported articles subject to ad valorem duties is believed to be determined with more accuracy, according to the legal method of valuation, than the value of imports with specific duties or free of duty, or the value of exported articles; the valuations of dutiable imports and of exports dutiable in foreign countries tend to understatement; and the valuations of imports that are free of duty are liable to inflation for the purpose of trade deception.

WEIGHTS.—In the official trade returns of the United States the weights of articles exported are usually net weights, and also the weights of all imports, except those which are subject to a specific duty levied upon the weight of the packages, including the weight of the article itself, together with some or all of its coverings.

All tons mentioned in this bulletin, except where it is otherwise stated, are long tons of 2,240 pounds.

DISCREPANCIES IN FOREIGN TRADE STATISTICS of various countries are partly due to different methods of estimating values, of determining countries of origin and destination, and of classifying merchandise, and to differences in dates. The United States does not regard a c. i. f. value (cost, insurance, freight) as the value of either exports or imports (except some foreign exports), while the United Kingdom, for instance, includes these in the value of its imports. It is said that these charges are often erroneously included by British shippers in their statement of export values, especially when the selling price includes insurance and freight.

In consequence of various sources of discrepancy, it is generally futile to undertake to balance an export of this country by any official statement of import into a foreign country, and often there is not an approximate agreement.

NONCONTIGUOUS POSSESSIONS.—The noncontiguous possessions of the United States are all those not included between Canada on the north and Mexico and the Gulf of Mexico on the south, and between the Atlantic and Pacific Oceans.

The trade returns of all the possessions of this country, except the Philippine Islands, are included in the total trade of the United States. In the trade statistics for any noncontiguous possession, all other noncontiguous possessions, except the Philippine Islands, are included with the United States; thus, shipments from Hawaii to Porto Rico are included in the total shipments from Hawaii to the United States.

ABBREVIATION.—"n. e. s." = not elsewhere specified.

IMPORTS OF FARM AND FOREST PRODUCTS, 1909-1911.

GENERAL SURVEY.

Imports of farm products into the United States for the fiscal year ending June 30, 1911, were valued at \$680,000,000, as compared with \$688,000,000 for 1910 and \$639,000,000 for 1909. Imports of farm products were 44.5 per cent of total merchandise imported in 1911, as compared with 44.2 per cent in 1910 and 48.7 per cent in 1909. Imports of forest products were valued at \$162,000,000 in 1911, \$179,000,000 in 1910, \$124,000,000 in 1909. (Tables 1 and 2.)

As shown in Table 3 the six grand divisions each remain in the same relative position in imports of farm products for each of the three years with the exception of Africa, which rose from sixth place in 1909 and 1910 to fifth place in 1911. As a source of forest products Europe rose from third place in 1909 and 1910 to first place in 1911.

As a source of farm products in 1911, nearly one-half, or \$325,000,000, came from the first five countries mentioned in Table 4—Cuba, Brazil, Japan, United Kingdom, and Italy. China rose from eighth place in 1909 and 1910 to sixth place in 1911. Germany fell from seventh place in 1909 to eighth place in 1910 and to eleventh place in 1911. Imports of farm products from Cuba are mostly sugar, \$82,000,000 for 1911, \$94,000,000 for 1910, and \$69,000,000 for 1909. Imports from Brazil were mostly coffee, \$66,000,000 for 1911, \$53,000,000 for 1910, and \$57,000,000 for 1909. More than three-fourths of the farm products brought from Japan was silk, valued at \$47,000,000 for 1911, \$40,000,000 for 1910, and \$45,000,000 for 1909. More than 90 per cent of the imports from Egypt was cotton, valued at \$21,000,000 in 1911, as compared with \$11,000,000 each for 1910 and 1909. Three items formed 56 per cent of the farm products brought from Canada in 1911. The three items and their values were seeds \$6,700,000; hides and skins, other than furs, \$4,500,000; and hay, \$2,500,000; 74 per cent of the three principal farm products imported from Mexico in 1911 consisted of three items; the items and their aggregate values were sisal grass, \$11,500,000; hides and skins, other than furs, \$5,300,000, and cattle, \$2,500,000.

As shown in Table 5, a little more than half of the forest products came from three countries—Canada, Brazil, and United Kingdom; \$87,000,000 in 1911, \$109,000,000 in 1910, and \$79,000,000 in 1909. An important decline is shown in imports from Brazil for 1911 of \$19,000,000 compared with 1910 and \$6,000,000 compared with 1909. The forest products brought from Brazil are nearly all india

rubber, valued at \$29,000,000 in 1911; \$47,000,000 in 1910, and \$34,000,000 in 1909. Other countries contributing large quantities of india rubber in 1911 were United Kingdom \$21,000,000; Mexico \$11,000,000, stated as Guayule gum in 1911; Germany, \$7,000,000; Belgium, \$6,000,000; British East Indies, n. e. s., \$4,000,000; and France, \$3,000,000. Eighty-seven per cent of the forest products brought from Canada in 1911 consisted of three items. The three items and their aggregate values were lumber \$19,700,000, pulp wood \$5,600,000, and wood pulp \$5,400,000.

As shown in Table 6, imports of animal matter was valued at \$209,000,000 in 1911, as compared with \$271,000,000 in 1910 and \$235,000,000 in 1909. Three items—silk, wool, and packing-house products—formed 80 per cent of the animal matter imported in 1911. Their aggregate value was \$184,000,000 in 1911, as compared with \$246,000,000 in 1910 and \$217,000,000 in 1909. A decrease is shown in imports of wool for 1911, as compared with the preceding year of \$28,000,000, due to a falling off of \$11,000,000 in imports from the United Kingdom, \$6,000,000 from Australia, \$3,000,000 from Argentina, and \$1,000,000 from China. The decrease of \$42,000,000 in packing-house products for the same period was caused by a falling off in imports of cattle hides of \$25,000,000 and goat skins \$9,000,000. The aggregate value of the three principal items in vegetable matter was \$243,000,000 for 1911, \$225,000,000 for 1910, and \$219,000,000 for 1909. The three items and their values for 1911 are sugar and molasses, \$98,000,000; coffee, \$91,000,000; and vegetable fibers, \$56,000,000. Important increases are shown in imports of coffee, \$21,000,000; seeds, \$15,000,000; vegetable fibers, \$7,000,000; vegetable oils, \$7,000,000; and tea, \$4,000,000.

The decrease in imports of forest products in 1911, as compared with 1910, is due to a falling off in imports of india rubber, mostly from Brazil, and the increase over 1909 is due to the same article from the same country. A decrease of nearly \$4,000,000 is shown in imports of lumber as compared with 1910, due mostly to a falling off of imports of lumber from Canada. (Table 6.)

Shipments of farm products from the noncontiguous possessions to the United States was valued at \$85,000,000, as compared with \$88,000,000 in 1910 and \$71,000,000 in 1909. Hawaii and Porto Rico contributed 81 per cent in 1911, 82 per cent in 1910, and 86 per cent in 1909. Of the farm products brought from Hawaii in 1911, 91 per cent was sugar, as compared with 94 per cent in 1910 and 1909. Eighty-four per cent of the farm products brought from Porto Rico in 1911 was sugar, as compared with 86 per cent in 1910 and 85 per cent in 1909. Manila fiber and cane sugar formed 93 per cent of the farm products brought from the Philippine Islands in 1911, as compared with 96 per cent in 1910 and 94 per cent in 1909. The packing-

house products brought from the noncontiguous possessions in 1911 were mostly hides and skins, from Hawaii and Porto Rico. The most of the coffee and all the rice came from Hawaii, and nearly all the tobacco from Porto Rico. (Tables 7 to 13.) The forest products from the island possessions and Alaska were valued at \$192,000 in 1911, \$232,000 in 1910, and \$118,000 in 1909. Nearly all the forest products brought from Hawaii were lumber in 1911 and 1910, but sawed timber formed the greater portion in 1909.

TABLE 1.—*Value of IMPORTS of FARM products into the United States, 1851-1911, and comparison with total imports.*

[All values are gold.]

Year ending June 30—	Total.	Farm products, ¹	Other than farm products.	Per cent of farm products of total.

1885.....	577, 527, 329	277, 340, 305	300, 187, 024	48.0
1886.....	635, 436, 136	306, 011, 332	329, 424, 804	48.2
1887.....	692, 319, 768	325, 652, 754	366, 667, 014	47.0
1888.....	723, 957, 114	339, 199, 344	384, 757, 770	46.9
1889.....	745, 131, 652	365, 586, 061	379, 545, 591	49.1
1890.....	789, 310, 409	384, 100, 435	405, 209, 974	48.7

¹ The classification employed from 1890 to 1901 differs from the present classification by including prepared opium and (in 1896-1901) gelatin, but not cochineal, licorice root, nor (in 1891-1893) beer extract. The value of the products included in this table for 1890-1901, but not subsequently, was as follows: Prepared opium, 1890, \$269,586; 1891, \$567,035; 1892, \$547,528; 1893, \$446,422; 1894, \$310,771; 1895, \$920,006; 1896, \$735,134; 1897, \$1,132,861; 1898, \$652,341; 1899, \$828,203; 1900, \$1,065,965; 1901, \$972,582; gelatin, 1896, \$15,386; 1897, \$5,748; 1898, \$25,907; 1899, \$21,961; 1900, \$30,361; 1901, \$23,230; the value of the products now included, but not in 1890-1901, was as follows: Cochineal, 1890, \$42,435; 1891, \$19,779; 1892, \$55,883; 1893, \$52,572; 1894, \$28,124; 1895, \$38,568; 1896, \$50,988; 1897, \$41,943; 1898, \$45,762; 1899, \$23,207; 1900, \$31,211; 1901, \$20,414; licorice root, 1890, \$794,503; 1891, \$896,597; 1892, \$1,601,028; 1893, \$1,688,716; 1894, \$1,209,728; 1895, \$1,404,563; 1896, \$1,401,748; 1897, \$1,022,650; 1898, \$1,171,621; 1899, \$1,566,830; 1900, \$1,667,256; 1901, \$1,737,097; beer extract, 1891, \$6,470; 1892, \$5,411; 1893, \$2,291.

TABLE 1.—*Value of IMPORTS of FARM products into the United States, 1851-1911, and comparison with total imports—Continued.*

[All values are gold.]

Year ending June 30—	Total.	Farm products.	Other than farm products.	Per cent of farm products of total.
1891.....	\$844,916,196	\$420,211,949	\$424,704,247	49.7
1892.....	827,402,462	436,697,057	390,705,405	52.8
1893.....	866,400,922	425,657,448	440,743,474	49.1
